

## Achieving the dreams of Aatmanirbhar Bharat

Vestige offers a vast range of products for steady improvement in crop yield and its quality. These include crop nutrition, crop disease prevention and management, activators and sprays, bio-fertilizers and crop bio-stimulants. Vestige Agri products are prepared with the help of modern biotechnology. These products help in increasing the yield through better root and trunk development, soil health, soil conditioning, resistance against diseases and better crop nutrition.

### VESTIGE AGRI-HUMIC

It is a plant bio-stimulant, which has 6% of humic substances obtained from freshly processed renewable agri biomass. It is used to improve plant nutrition, health, development and crop productivity. This substance is used on plant or soil to improve crop efficiency, productivity and quality.

#### Tips

- Seed treatment: 5-10 ml per kg of seeds
- Root dipping: 2-4 ml in a litre water
- Foliar spray: 2-4 ml in each litre of water
- Soil application: 500-600 ml per acre

500 ml bottle | MRP ₹ 595.00 (Incl. of all taxes)

### VESTIGE AGRI 82

Vestige Agri 82 is a highly concentrated non-ionic spray adjuvant liquid with 82% of active ingredients. It is used to maximise the performance of the agro-chemicals. It is an excellent disseminator, activator and wetter which helps in increasing the crop productivity by improving the pesticide coverage.

#### Tips

- For foliar spray with pesticides / fungicides / fertilizers / Vestige Agri products: 5-10ml/15L
- Herbicides: 15-20ml/15L
- Fertilizer: 3-4ml/kg
- Irrigation: 160-200ml/acre

100 ml x 3 bottles | MRP ₹ 315.00 (Incl. of all taxes)  
500 ml bottle | MRP ₹ 440.00 (Incl. of all taxes)  
5 L bottle | MRP ₹ 3850.00 (Incl. of all taxes)

### VESTIGE AGRI GOLD

Agri-Gold is an extra-ordinary combination of bio-elements, which helps in metabolic activities, growth and in increasing secondary roots. It breaks the dormancy of different growth stages of the plants. It increases the resistance capability of the plants and reduces the possibility of occurrence of diseases in the plants.

#### Tips

- To spray on the plants: Have 2 sprays till emergence of flowers and after fruiting, carry out 1 to 2 sprays. Quantity should be in the proportion of 1-2 gram/litre.
- For drip irrigation: In the proportion of 100 to 200 gram per acre.

100 g carton | MRP ₹ 600.00 (Incl. of all taxes)

### VESTIGE AGRI NANOTEK

Made with nanotechnology, it is a nano growth enhancer and stable in both alkaline and acidic soils (pH 3 to 11). It can be used directly or using a foliar spray for soil treatment. It has distinctive nano-scale traits such as leaf surface expansion, improvement in environmental stress resistance and crop enrichment.

- Delivers nutrients present in the mixture and a stable performance in both acidic and alkaline soils.
- The nanostructure aids optimised motility in soil and plant.

#### Tips

- Spray 1.5-2.5g/litre of water
- Foliar Spray 120-200g/acre
- Use on first flowering stage followed by 20 days after flowering.
- Dosage depends on standing crops' morphology.

500 g carton | MRP ₹ 1475.00 (Incl. of all taxes)

### VESTIGE AGRI-PROTEK

Agri-Protek is a unique product, which remains active through internal flow and contact action. It rapidly grows in the roots of the plants. It generates an antibiotic enzyme. The conidial spores and the pieces of mycelium control most of the fungal diseases of the crops. It destroys the pathogens by entering into the rhizosphere of the roots and protects the plants.

#### Tips

- To control the disease: Spray twice within 7 days: 2 or 3 g/L
- To prevent the disease: Soil application: 1kg/acre
- Spray : 2 g/L
- Seed treatment: 10g/kg

500 g carton | MRP ₹ 1475.00 (Incl. of all taxes)

### VESTIGE AGRI-MOSS

AGRI-MOSS enhances crop performance, growth, vigour, yield and quality. It is very useful in plant's fertility and reproduction process. It improves anti-stress effect. It is a product of natural origin for the balanced nutrition of plants, which can be used as foliar spray.

#### Tips

- It can be used on various crops:
- On vegetables: 20ml /15 L of water
- On fruits crops: 20ml /15 L of water
- On flowers: 20ml /15 L of water
- On grains crops: 20ml /15 L of water
- Oil seed crops: 20ml /15 L of water

Note: Use AGRI-MOSS 15 to 20 days before flowering starts and after 20 days of flowering or at the time of fruit setting.

100 ml bottle | MRP ₹ 380.00 (Incl. of all taxes)  
500 ml bottle | MRP ₹ 1750.00 (Incl. of all taxes)

### VESTIGE AGRI-HUMIC GRANULES

AGRI-Humic Granules is a plant bio-stimulant. It contains 1.5% Humic Substances extracted from renewable Agri Biomass. It contains active forms of Humic substances like Humic acid, Fulvic acid and Humins that exhibits Phytohormones like activity.

#### Tips

- Field Crops: 5-8 kg/acre (10 days after sowing/transplanting and second application after 30 days)
- Perennials/ Vines: 100-150 g/tree or vine in root zone
- Nursery: 2 kg/acre

5 kg carton | MRP ₹ 700.00 (Incl. of all taxes)
