RESPOCARE

- The primary function of the respiratory system is to supply oxygen to all parts of the body
- Respiratory system does this through breathing. When we breathe, we inhale oxygen and exhale carbon dioxide

Common upper RTIs:-

- The common cold
- Tonsillitis – infection of the tonsils and tissues at the back of the throat
- Sinusitis – infection of the sinuses
- Laryngitis – infection of the larynx (voice box)
- Flu

Common lower RTIs:-

- Bronchitis – infection of the airways
- Pneumonia – infection of the lungs
- Bronchiolitis – an infection of the small airways that affects babies and children aged under two
- Tuberculosis – persistent bacterial infection of the lungs
