

# He Cared

# Its time to care back

They provide financial, social, mental security

But as they age their **life journey becomes difficult**

Men may suffer from  
some very **disturbing**  
**diseases**

One of them is  
**Prostate Enlargement**

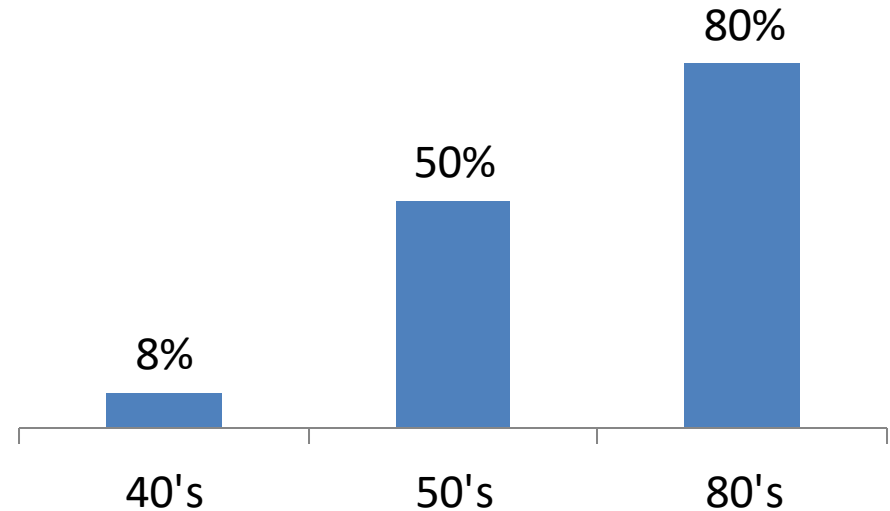

# Do you know?

**8 out of 10 men (80%)  
eventually develop  
an enlarged prostate**

- **About 50% of men at age above 50 and 90% of men above age 85 will have enlarged prostate (Benign prostate hyperplasia)**

Prostate enlargement increases with age

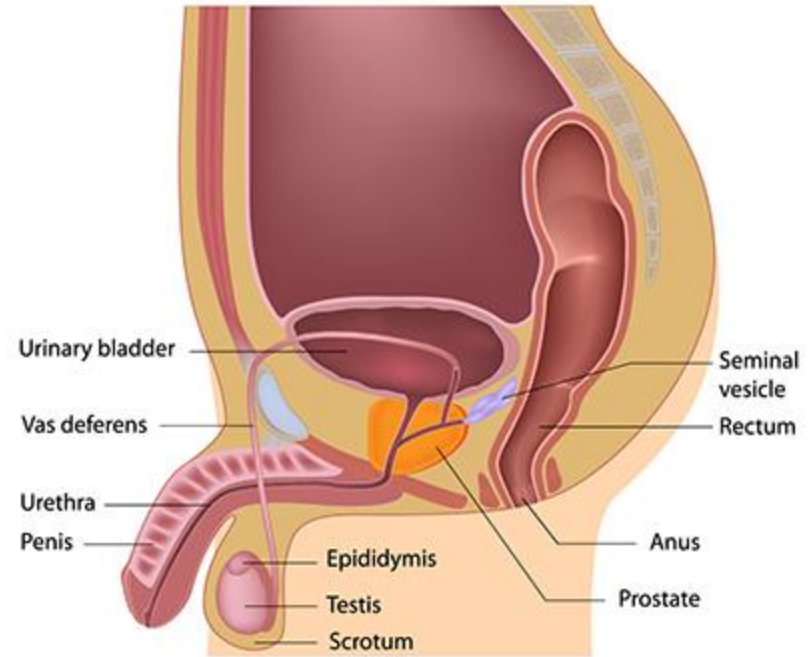

People suffering from  
**hypertension,  
diabetes, and obesity**  
are more prone to  
develop enlarged  
prostate

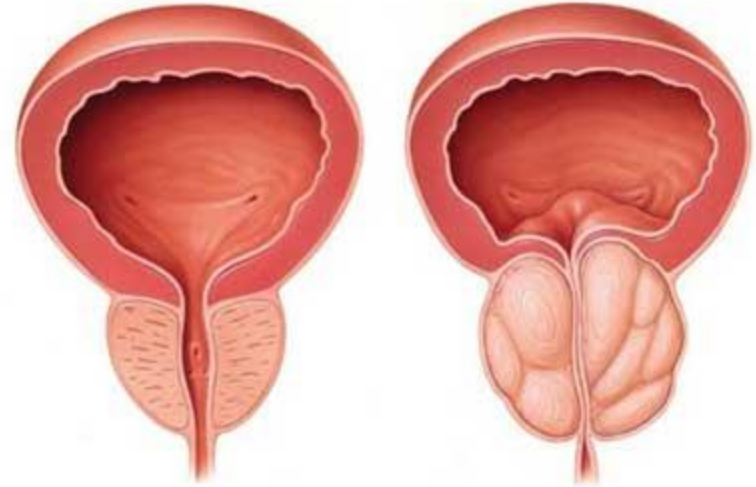

# What is prostate?

- The prostate is part of the male reproductive system. It is a gland which is located underneath the bladder and is about the size of a chestnut
- It surrounds the urethra, the tube that carries urine from the bladder.

# Prostate enlarges as we age

- As we age, prostate can become larger. It's a normal part of aging for most men
- Enlarged prostate squeezes that tube
- This causes problems while urination

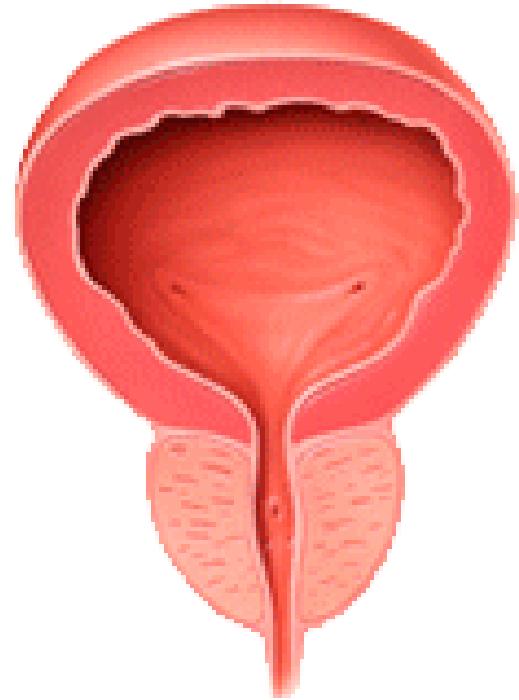

Normal Prostate

Enlarged Prostate

# Men are not aware about prostate enlargement

Most men hardly know they have a prostate until they reach **50 years of age**, when prostate health becomes a serious issue.

# Common problems related to prostate

COMMON PROBLEM	DESCRIPTION
Enlarged Prostate	<ul style="list-style-type: none"><li>• It is also known as Benign Prostatic Hypertrophy (BPH), this affects almost all men aged 50 or over.</li><li>• It makes it difficult to urinate and, in rare, serious cases, can prevent urination entirely.</li></ul>
Prostatitis	<ul style="list-style-type: none"><li>• It's an inflammation of the prostate.</li><li>• Sometimes its also caused by an infection.</li></ul>

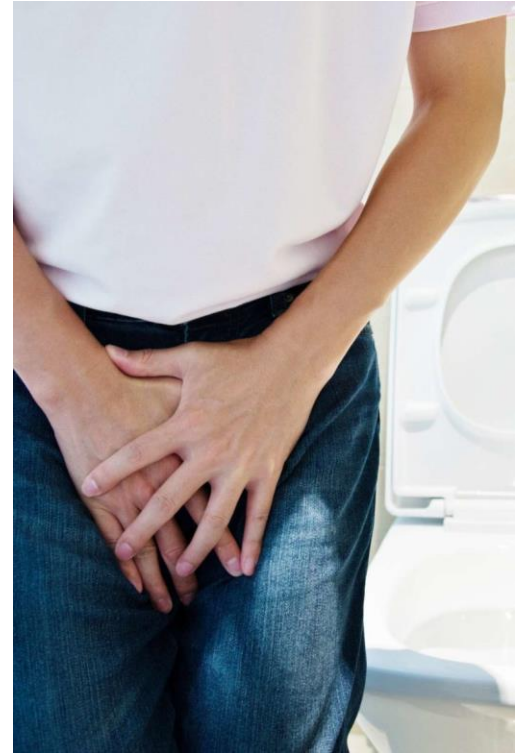

# People at Risk

# 100% vegetarian

# Ayusante Prostate Care - Ingredients

COMMON NAME	SCIENTIFIC NAME	USES
Punarnava	<i>Boerhaavia diffusa</i>	It has been shown to be effective for symptoms of Benign Prostatic Hypertrophy (BPH) as it has anti-inflammatory effect.
Varun	<i>Crataeva nurvala</i>	Varun has been seen beneficial in prostate enlargement by helping in reducing the prostate weight.
Satavari	<i>Asparagus racemosus</i>	Satavari helps relieve inflammation and improves urination – including urine retention.
Kanchnar	<i>Bauhinia diffusa</i>	Kachnar is a famous herb for maintaining prostate health. It helps in maintaining the normal size of the prostate gland by supporting balanced cell production.

# Ayusante Prostate Care - Ingredients

COMMON NAME	SCIENTIFIC NAME	USES
Shilajitu	<i>Asphaltum punjabinum</i>	It helps in supporting the energy levels and also has the benefit of supporting the urinary and reproductive tract.
Gokshura	<i>Tribulus terrestris</i>	Gokshura is an herb that is both sweet and cooling and also has an affinity to the whole urinary and genital tract. It is a tonic for the kidneys and the reproductive tract as it supports the healthy flow of urine.
Aparajita	<i>Clitoria ternatea</i>	It has anti oxidant property so it helps in protecting the prostate from the free radical damage.
Supari	<i>Areca catechu</i>	It affects almost all organs of the human body, including the brain, heart, lungs, gastrointestinal tract and reproductive organs. In reproductive organs, it specifically prevents the cause of enlarged prostate.
