

PURITY WITH
ELEGANCE

VESTIGE

SHARP

Be Original.

Sharp Water Purifier Pitcher is ideal for

1. Input Water TDS

If the Input Water TDS is lesser than 300 or you are drinking water directly from the tap. There are some areas where water is drinkable throughout the year, but has minor problems during monsoon.

2. Already using a Water Purifier purchased recently

This can enhance the purity of the existing Water and make it more bio available – easily enters the circulation system to have an active effect.

3. On the Go

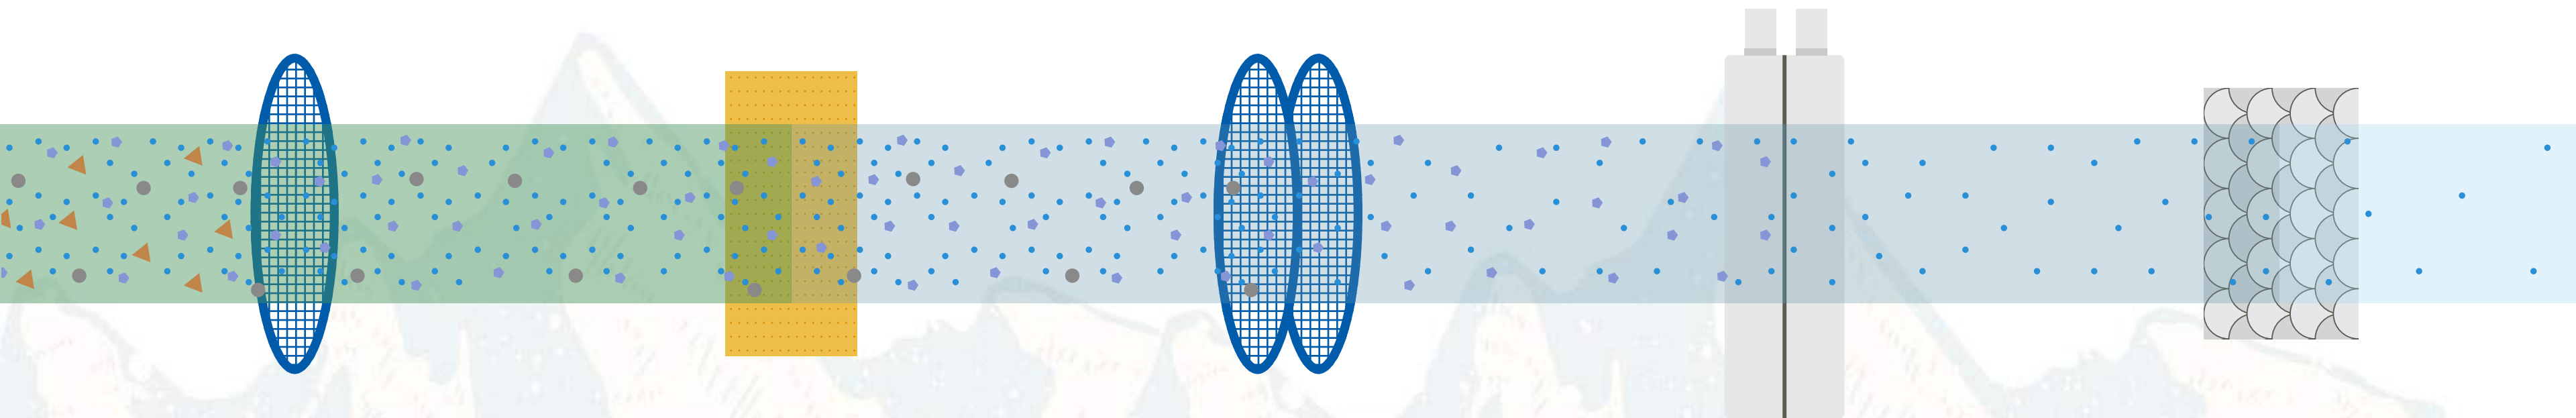

Not always do we get access to clean water at public places or on trips. This helps ensuring hygiene.

4. Enhance Customer Care – Hotels, Restaurant & Hospital

They may keep this in the Guest rooms, lesser wastage and use of Plastics as well as improve customer care.

The Water Purifier Pitcher Filter Membranes

Mesh Pre Filter

Removes rust, sand, sediment and other coarse particles

Resin layer – softener

Reduces hardness
Also improves taste & aroma.

Dual Mesh Filter

Ensures no coarse particles are leaked into filtered water.

Heavy metal remover

Eliminates lead, mercury, Copper & other soluble metals.

Super ACF from Japan

Eliminates chlorine, colour, smells, chloroform and improve taste.

Sharp Water Purifier Pitcher – quick user guide

01

Items in the box

The package contains the Inner layer for filtered water (transparent), outer fit in for inlet water (black part) and the Filter Cartridge.

TIME ROUND

INLET COVER

PITCHER COVER

PITCHER BODY

INNER TANK

FILTER CARTRIDGE

Sharp Water Purifier Pitcher – quick user guide

02

Start assembling

Soak the filter cartridge in a clean container for 20 minutes. Wash clean the outer and inner parts of Pitcher. Push the filter Cartridge into the cavity firmly.

03

Rinse it thoroughly

Wash out the filtered water for first three times and every-time you replace the Filter Cartridge.

04

Start using

Manually open the inlet cover and add water to the input tank. Start using only when the input water is drained into the base tank. Don't use it for storage, consume at earliest.

05

Do remember

Set the jog dial at the start month of using and replace the filter after 6 months. Clean the inner & outer tanks weekly. Never use Turbid water.

Let's summarize

1. WHAT IS THE INCOMING SOURCE OF DRINKING WATER?
