## Water Purifier RO WJ-400-W

Introducing SHARP Water Purifier WJ-400-W with 4 stage filtration and 5.4L storage tank, exclusively presented by Vestige Marketing Pvt. Ltd. Supremely clean water whenever you need, in an aesthetically pleasing and modern package.

### Filter Membranes

# 1

#### Poly Propylene Filter

Expected Filter Life\*: 6 months

Preliminary filtration that removes sand, mud, rust & suspended solids

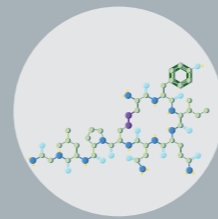

# 2

#### Carbon Block

Expected Filter Life\*: 8 months

Removes organic compounds, and chemicals including chlorine. Improves taste & aroma of water

# 3

#### RO Membrane from USA

Expected Filter Life\*: 24 months

Removes remaining heavy metals such as arsenic, cadmium, chromium and lead, plus inorganic salts such as fluoride or nitrate nitrogen; and organic substances such as chloroform & carbon tetrachloride.

# 4

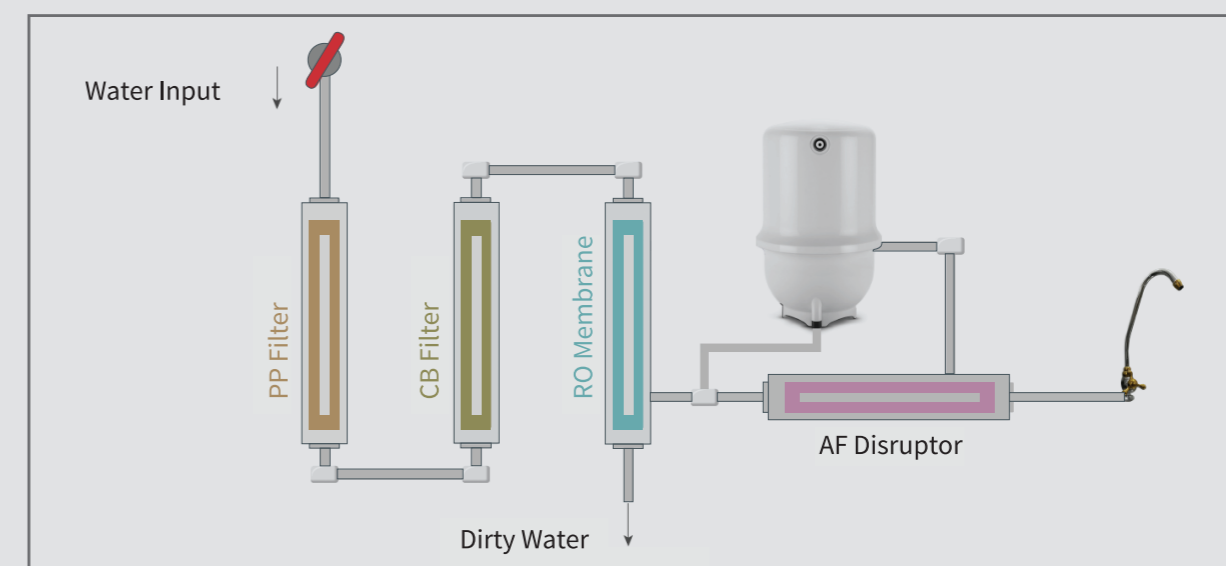

#### AF Disruptor

Expected Filter Life\*: 12 months

Removes cysts and bacteria from water stored in the tank using Nano Alumina fibers, with Zeta potential of 51 millivolts. Unlike Mechanical Filters, AF Disruptor technology secures contaminants and removes them, instead of simply filtering them out.

### A Closer Look at Filtration Stages

### Advantages

**Cleanest Water Promise**  
Disruptor® System ensures only the cleanest, purest water

**Filter Life Display Indicator**  
Resettable filter indicator ensures consistently clean water without increasing operating cost

**Unique Combination of Filter Membranes**  
4-stage filtration provides safe drinking water for your loved ones, no matter the source

**High Quality Materials**  
Superior build quality and understated design combined with environmentally safe high quality foodgrade materials. Safety certificates from TUV SUD & RoHS

**RO Membrane from USA**  
Unmatched quality built around advanced technology and innovative performance features

\*Filter life may vary depending on water condition and usage
