## KRILL OIL\*

**SOURCE OF PHOSPHOLIPID,  
OMEGA – 3 WITH ASTAXANTHIN**

Antarctic Krill, which is the source of Krill Oil, is comprised of three major components - omega-3 fatty acids, primarily eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) attached to phospholipids and astaxanthin. Most of the omega-3 fatty acids in Krill Oil are attached to phospholipids, making them more bioavailable to the body, and allowing omega-3 to be easily absorbed by target organs such as the heart, brain and liver, where they exert their beneficial effects. Vestige Prime Krill Oil is extracted by a proprietary technology, called Multi Stage Oil extraction (MSO®) process, that assures high-quality oil which has superior stability, quality and organoleptic properties.

**Recommended Usage:** One to two capsules daily with food

**Net Content:** 30 capsules

# The stronger the foundation, the longer you live

## Health Care

Being healthy is important because it can help a person have a healthy heart, better muscles, stronger bones, a sense of well-being and a better social life. Eating right and correct exercising will lead to overall better health. When exercise and healthy eating are achieved on a daily basis, people tend to feel better about themselves. While the spectrum of health problems resulting from calorie-protein undernutrition is different from the “empty-calories” overfeeding, both can have devastating consequences on both quality of life and longevity.

So, Vestige brings a range of products to fulfil the daily gap of nutrition for an individual. The range consists of health supplements for healthy immunity, cardiovascular system, glycaemic health, detox and rejuvenation, women health, fitness and for healthy bones and joints.

This range of supplements from Vestige enables people to live a qualitatively better healthy life and step into the world of wellness.
