Our Vestige World

My Dear Vestigians,

Good morning

Vestige turned 18 with a very crucial message for all in the post-pandemic – Health Connects Us All. Why health connects us all? Health is the parameter of our viability, of our existence and of our ability to influence others. Without good health we cannot build a good business, we can't achieve our goals and realise our dreams.

The secret behind Vestige's phenomenal success is that we have always prioritised your overall wellbeing. We know a healthy you can pursue your goals with vigour and vitality. Therefore, we have always ensured that you remain healthy.

Health connects us all – our people, our employees, the management, the vendors, our partners, everyone. Health connects you with your prospects, with your downlines and uplines. Good health allows you to take extraordinary steps to upgrade your life to the next level.

You know our company's principal health doctrine had been Cellular Nourishment Therapy (CNT). We believe cells, the basic parts of our bodies, need good nutrition for our overall wellness. There are three components of the CNT – good food, good water and good air. Vestige has so far brought you all these components through its wide range of product offerings.

This year, to enhance your wellbeing and to overhaul our health offerings with the support of cutting-edge technology, we are transforming CNT to Cellular Nourishment Technology, which will be an enhanced version of your overall wellness mantra.

My dear Vestigians, remember most direct selling companies don't survive beyond a few years. Vestige, an Indian-origin direct selling company, completing 18 years of a successful journey, covering 2.5 million lives, is a testimony how the Wellth Revolution is effective in adding value to the lives of people through good health.

I am sure your remarkable achievements in the days to come will take Vestige to higher peaks of success and we will definitely connect more people with good health. The society needs good health and Vestige is here to provide it. Good health is what connects us all as a community.

Wish You Wellth!

HEALTH CONNECTS US ALL

Health connects individuals to the society and helps build a community. However, the major challenge people face in the modern times is how to actually gain immaculate health and sustain a healthy living.

In this article, we will discuss in detail how we can upgrade our lives with good health and bring happiness to our communities.

Here is a list of nine healthy habits that you can do every day to help create a healthier life-style.

1. Wake up early

Alright, you don't need to rise and shine with the sun every morning, but waking up at a decent (early) hour is essential for optimal health. The human body and brain have evolved to follow a circadian rhythm that helps to regulate sleep and wake patterns that are set by our natural environment, specifically the rising and setting of the sun. This natural circadian rhythm also corresponds with the body's natural cortisol levels: a hormone well known for its role in our metabolism, immune system, stress response and energy levels. In a balanced state, cortisol levels start to rise 2-3 hours after the onset of sleep and continue to rise into the early morning helping to wake us.

2. Drink water before anything else

Although it is imperative to drink water throughout the day, one of the best (and easiest) times to drink water is first thing in the morning. So, before you start sipping on your morning brew, drink a glass of water. Not only is it refreshing, but it can help to hydrate the body while aiding digestion and metabolism at the same time.

3. Keep moving

Due to our sedentary lifestyles we are moving less than our previous generations. Many of us work sitting down, travel sitting down, and relax sitting down, so it is becoming more and more important that we create ways to move since they are no longer occurring organically. Whether you love biking, swimming, dancing or going to the gym, it is imperative that you find some form of movement that you enjoy and make time for it on a daily basis.

4. Go outside

Getting fresh air on a regular basis is one of the easiest ways to improve your overall health. Exposure to the sun enables the body to produce Vitamin D, which has been shown to have many essential functions in the body, especially when it comes to bone health.

5. Sit and eat

When it's time to eat, sit down. Eating while sitting down forces you to slow down and chew the food you are eating, which helps the digestive system. The act of sitting down also helps to ensure that the body is in a more optimal postural position for the digestive system.

6. Go, walk

Walking is one of the most underrated healthy habits you can do. Walking is often overlooked because it's so simple or it "doesn't burn that many calories" but science shows that putting one foot in front of the other can lead to some impressive mental and physical health benefits. Not only does walking improve fitness, cardiovascular markers and helps to prevent weight gain, but it has also been shown to improve posture, mood, circulation, the risk for chronic disease, as well as alleviate fatigue and depression.

8. Eat vegetables

Not only are vegetables whole foods but they are rich in vitamins, minerals and are great sources of fibre, which can help to maintain a healthy gut, prevent constipation and other digestion issues. Individuals who consume vegetables regularly had roughly a 20% lower risk of coronary heart disease and stroke, compared with individuals who ate less than three servings per day.

9. Go to bed early

Sleep is the only time during the day where our bodies are able to relax, unwind and recover. Unfortunately, many people are falling short of the recommended 8 hours of sleep per night and this can have a devastating impact on our health. Going to bed earlier will actually make waking up early easier, which is one of the most important healthy daily habits you can do.

Conclusion

Health connects us all, so creating a healthy lifestyle by focusing on small healthy daily habits will boost your wellbeing in the long-term. Developing healthy daily habits will take time, dedication and determination, but that does not mean they can't be done. Take your time and work on individual healthy habits to help ensure that your health and success are long-lasting.

I believe that in a business like direct selling, personal recommendations carry a lot of weight. In Vestige especially, personal product consumption is what helps you experience the product for yourself and form your own opinion. I have succeeded by consuming the products myself and sharing them with those around me. This way, not only can I expand my business, but I can also convert more people to the power of Wellth.

I like direct selling because it's the industry where we can grow ourselves together. I was in the system of a different direct selling company for five years, but there I didn't get proper success and couldn't realise any of my dreams. I took up the Vestige opportunity in 2012, but initially I didn't work and there were no actions at my end. After two years, I experienced few products and was overwhelmed. Then I took up with much vigour and within this short span of time I've achieved this level. I'm glad to find a system where the management offers so much support to the distributors and help them grow.

It's only been a little time since I've been working with Vestige, but in that time I've gained so much. Vestige has given me, not just health, but also wealth.

ANIRUDHA MEHER

Vestige's success plan is easy to follow because the products are so good; they bring in people by themselves. I am impressed by the quality and because these products are manufactured in India, this is another point of pride. Vestige makes me proud to be associated with such a company.

KRISHNARJUNA RAO TIRUKKOVALLURI

I was looking for a way to earn money and become financially independent when Vestige came my way. I have paid off the debts I had incurred and it is truly a liberating feeling. Now I am in a position where I can afford the good things in life and support my loved ones financially.

CHUNGILAL KARUAN

I am glad that I got this opportunity to spread Wellth through my upline, I had never thought I would be in such a respected position today. Thank you to my upline for being an amazing and supportive mentor who was always ready to assist me and help me out. I would not be here without them.

AGOSSA BIENVENU DOMAGNI(GHANA)

I harnessed my passion and have achieved untold success. Are you a passionate individual who is searching for the right opportunity to showcase their talents? If yes, then Vestige is the platform for you. This is the perfect place to meet like-minded people who are driving towards the same goal - to spread Wellth. Wish You Wellth!

PERIASAMY

Vestige is a company which exemplifies Aatmanirbharta. For over 18 years, it has been championing this cause and hoping to give people a way to change their lives. I am proud to be a part of the Vestige family for this company has made my dream of being financially independent come true. Thank you for everything, Vestige.

HAROUNA OUATTARA OUELO(GHANA)

My thanks to my upline for introducing me to this opportunity and for encouraging me every step of the way. I was working a regular job but I took up direct selling on a part-time basis because I needed some extra income at the time. Soon, I found that my earnings at Vestige outstripped my expectations and I am now pursuing it full-time.

KAN JOEL YAO(GHANA)

I thank the management for this glorious platform which gave me the chance to change my future. I was in the middle of a financial crisis when I first learned about Vestige. As I was looking for any opportunity at the time, I eagerly signed up to be an independent distributor. Now I am in a stable position and am able to provide for my loved ones.

GOHORE FIYA OLIVER SEI BI(GHANA)

Thanks to Vestige, not only are my financial woes past me, but I am also on track to becoming financially independent! I cannot express how happy I am that such a lucrative opportunity happened to land in my lap. I thank my upline and downlines for their continuous encouragement and for helping me along the way.

Invest in your *rest* & wake up *fresh!*
